Memorandum of Mr. Studer

October 27 1926

On Wednesday, October 27th, at New Brunswick, we talked with the following people:

John V. Hubbard

Mr. Hubbard said that when he arrived at the place in question, the bodies had already been removed by Sutphen. Hubbard got Mr. Hall's body, Saturday evening, the 16th and Mrs. Mills' body the next day. There was nothing unusual about the removal certificate. It was the ordinary kind which had to be changed regularly for a burial permit. Burial permits are of two kinds, one to permit burial within the State and the other to permit it without the State. Mr. Hubbard also left with us a blank form of undertaker's certificate for the transportation of a dead body and a blank form of certificate of death to be filed with the Bureau of Vital Statistics at Trenton.
